# ABOUT G-20

The G20, or Group of Twenty, is an intergovernmental forum comprising 19 countries and the European Union (EU).

It addresses significant global economic issues, such as international financial stability, climate change mitigation, and sustainable development.

The G20 Countries together represent around 90% of global GDP, 80% of international trade, and two-thirds of the World's population.

## ABOUT INDIA

India is one of the oldest civilizations in the World, with a kaleidoscopic variety and rich cultural heritage. It has achieved overall socio-economic progress since its Independence.

India has become self-sufficient in agricultural production and is now one of the top industrialized countries in the World and one of the few nations to have gone into outer space to conquer nature for the benefit of the people.

As the 7th largest country in the World, India stands apart from the rest of Asia, marked off as it is by mountains and the sea, which give the country a distinct geographical entity. Bounded by the Great Himalayas in the north, it stretches southwards and, at the Tropic of Cancer, tapers off into the Indian Ocean between the Bay of Bengal on the east and the Arabian Sea on the west.
